

FIELDWORK : OPERATION 001

IDENTIFY A ZONE FOR PLAY.

During November through January our fieldwork activities will escalate. Tags will appear in certain zones. Right now, it is up to you to identify sites for play.

Look for forgotten zones, transient places, inbetween spaces, game realms ... spaces for codemaking, realms for crossmedia ecologies, and zones for the World Machine.

1. Explore the city blocks included in the above map.
2. Look for spaces that may be rezoned through play.
3. Mark one site on the map above. Add a few comments.
4. Place your map and a SASE in an envelope and drop into our mailbox in Flanigan Ln.
